MULTI-FUNCTION MONOCHROME LASER PRINTER

COMPACT | QUIET MODE | FAX

Business *Can* be simple

THE IDEAL
OFFICE COMPANION

Combining function with style, the imageCLASS MF4750 is the ideal office workhorse for the small office.

When you have a need to relocate the device, received fax images are always secure with the new Permanent Fax Memory Backup feature. The new Vari-Angle Operation Panel affords one-touch simplicity and a superb view of the LCD display at all times, while the new Quiet Mode feature ensures minimal disturbance to co-workers in the vicinity.

MULTI-FUNCTION MONOCHROME LASER PRINTER

VARI-ANGLE OPERATION PANEL

Extend the panel out towards you, or flushed against the front profile for a better viewing experience. A large 5-line LCD display shows more menu options at any time.
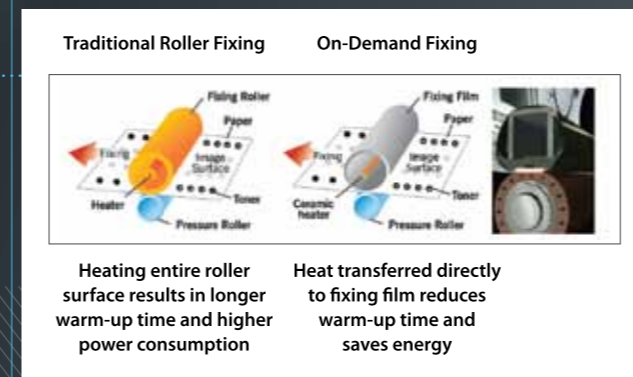

A QUIETER WORKING ENVIRONMENT

Pushing the new Quiet Mode key plunges the device into near-stealth operation, reducing engine noise to a bare minimum.
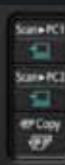

QUICK WARM-UP AND RECOVERY TIMES

With On Demand Fixing technology, users can expect the imageCLASS MF4750 to resume a ready-state in just 2 seconds, ready for the next print or copy job.

Traditional Roller Fixing   On-Demand Fixing

Heating entire roller surface results in longer warm-up time and higher power consumption

Heat transferred directly to fixing film reduces warm-up time and saves energy

ONE-TOUCH SOLUTION KEYS

Three task-dedicated Solution Keys on the imageCLASS MF4750 further simplify operations with minimal button-pushing for the most standard of tasks.

// Scan To PC 1 & PC 2
Two user-defined keys that remember your preferred scan settings when scanning to a computer.

// Paper Save Copy
Reduces the number of steps needed to make paper-saving copies, such as 2-on-1 or 4-on-1 copies.

35-SHEETS AUTO DOCUMENT FEEDER (ADF)

A 35-sheet Auto Document Feeder (ADF) performs automated copying, scanning, or faxing of multi-page document originals.

LASER QUALITY PRINTING AND COPYING

With laser quality print and copy speed up to 23ppm/cpm (A4), and First Printout Time at 6 seconds (A4) or less, the imageCLASS MF4750 will complete your multi-page print or copy jobs faster than conventional inkjet systems.

SUPERB PRINT PROCESSING EFFICIENCY

Canon's next-generation UFRII LT page description language enables faster print processing using a unique Load Balancing System between the host PC and device.

RELIABLE FAX PERFORMANCE

With the new Permanent Fax Memory Back-up feature and 256-pages fax reception memory, received faxes are protected from accidental erasure in the event of power failures.

INCREDIBLE ENERGY SAVINGS

The imageCLASS MF4750 consumes a mere 1.4W in Standby mode. With image layout options such 2-on-1 and 4-on-1 copying, you can save the environment while reducing paper costs.

MINIMAL DEVICE MAINTENANCE

The Canon All-in-One Toner Cartridge 328 combines the photosensitive drum, toner reservoir, and waste toner container into a compact and precisely-engineered unit, making toner replacements easy and minimizes device maintenance.

QUALITY TONER ENGINEERING

Canon MS-Toner adopts a unique spherical shape to achieve smooth and consistent imaging quality. MS-Toner also improves melting performance, which complements and enhances the On-Demand Fixing process through the use of less heat and pressure.
